VIEWS

- 12 **If a Tree Falls ... : Getting Your Clinical Insights Out**
JADA Editor Marjorie K. Jeffcoat, D.M.D., encourages readers to share their knowledge by contributing to JADA, as well as by participating in lectures and continuing education courses.

LETTERS

- 16 *JADA readers explore shade-match perception, women's health and training dental team members.*

NEWS

- 20 *People with chronic periodontitis have low levels of the protective antioxidant glutathione, according to a recent report in Molecular Pathology. Learning about patients' stress coping strategies could help health care professionals properly diagnose and treat some conditions, researchers report in the November issue of the Journal of Periodontology. JADA readers respond to the October Question of the Month.*

INFORMATICS & TECHNOLOGY

- 30 **The Technologically Well-Equipped Dental Office**
Titus K.L. Schleyer, D.M.D., Ph.D., and colleagues
Dr. Schleyer and colleagues discuss several state-of-the-art computer technologies, provide an integrative view of a technologically well-equipped office and offer several guidelines for making purchasing decisions.

RESEARCH

- 43 **The Effect of Diabetes Mellitus on Endodontic Treatment Outcome: Data From an Electronic Patient Record**
Ashraf F. Fouad, D.D.S., M.S.; Joseph Burleson, Ph.D.
The authors use a custom-built electronic record system to investigate endodontic diagnostic and treatment outcome data in patients with and without diabetes.

- 53 **Using Chemomechanically Assisted Diamond Bur Cutting for Improved Efficiency**
J. Anthony von Fraunhofer, M.Sc., Ph.D., F.A.D.M., F.R.S.C.; Sharon Crane Siegel, D.D.S., M.S.
Drs. von Fraunhofer and Siegel evaluate the effect of chemomechanical effects on long-term cutting by diamond burs.

CLINICAL PRACTICE

- 61 **Xerostomia: Etiology, Recognition and Treatment**
James Guggenheimer, D.D.S.; Paul A. Moore, D.M.D., Ph.D., M.P.H.
The authors conduct a literature review of clinical and scientific reports of xerostomia in the dental and medical literature during the past 20 years.
- 71 **Antidepressant Use in Psychiatry and Medicine: Importance for Dental Practice**
Joseph J. Keene Jr., D.D.S., M.S.; Gail T. Galasko, B.Sc.(Hons), M.Sc., Ph.D., M.R.S.C.; Martin F. Land, D.D.S., M.S.D.
Dr. Keene and colleagues conduct a retrospective study of randomly selected patient records and evaluate the prevalence of using antidepressants and other medications concurrently.

81 **Branchial Cleft or Cervical Lymphoepithelial Cysts: Etiology and Management**

Jeffrey W. Glosser, D.D.S.; Carlos Alberto S. Pires, B.D.S.; Stephen E. Feinberg, D.D.S., M.S., Ph.D.

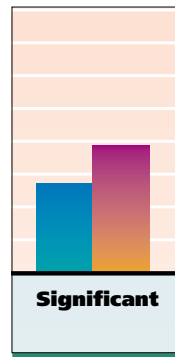

The authors provide a brief review of the literature regarding cervical lymphoepithelial cysts, define diagnostic terms related to this anomaly, and describe its etiology, clinical presentation and treatment.

PRACTICAL SCIENCE

87 **Minimally Invasive Dentistry**

Carol Anne Murdoch-Kinch, D.D.S., Ph.D.; Mary Ellen McLean, D.D.S.

Drs. Murdoch-Kinch and McLean summarize scientific developments in cariology, dental materials and diagnostic systems that have changed dentistry's approach to diagnosis and management of dental caries.

page 103

DENTISTRY & MEDICINE

97 **The Effect of External Nasal Dilators on Blood Oxygen Levels in Dental Patients**

Allen J. Moses, D.D.S.; Marcus Lieberman, Ph.D.

In this study, the authors examine the use of external nasal dilators on dental patients and determine whether the subjective improvement in comfort level is accompanied by a rise in the oxygen saturation level.

ASSOCIATION REPORT

103 **ADA Members Weigh in on Critical Issues**

Karen Burgess, M.B.A.; Jon D. Ruesch, M.A.; Matthew C. Mikkelsen, M.A.; Karen Schaid Wagner, B.S.

The authors review the findings of the American Dental Association's 2000 Membership Needs and Opinions Survey.

GORDON J. CHRISTENSEN, D.D.S., M.S.D., Ph.D.

111 **What Has Happened to Removable Partial Prosthodontics?**

Dr. Christensen explores the state of the art in removable partial prostheses and suggests potential methods of improvement.

DENTISTRY & THE LAW

114 **Business Associate Agreements: A Key Requirement Under the HIPAA Privacy Regulations**

Peter M. Sfikas, J.D.

Mr. Sfikas reviews the provisions for business associate agreements under the Health Insurance Portability and Accountability Act of 1996.

CONTINUING EDUCATION

117 *JADA's continuing education program highlights the effect of diabetes mellitus on endodontic treatment outcome, chemomechanically assisted diamond bur cutting, xerostomia and the effect of external nasal dilators on blood oxygen levels.*
