## VIEWS

- 1632 Treating Asymptomatic Patients**  
*JADA Editor Michael Glick, D.M.D., explores the benefits and risks of screening asymptomatic patients for the risk of developing disease.*

## LETTERS

- 1636** *JADA readers explore access to care.*

## NEWS

- 1648** *The new online home of The Journal of the American Dental Association, developed in partnership with Stanford University's HighWire Press, is at "http://jada.ada.org".*

## COVER STORY

- 1658 Managing the Care of Patients With Bisphosphonate-Associated Osteonecrosis: An American Academy of Oral Medicine Position Paper**  
Cesar A. Migliorati, D.D.S., M.S., Ph.D., and colleagues  
*The authors address the prevention of bisphosphonate-associated osteonecrosis (BON) and the management of patients with cancer and/or osteoporosis who are receiving bisphosphonates and who have or are at risk of developing BON.*

- 1669 Bisphosphonate-Associated Osteonecrosis of the Jaws: A Review of Current Knowledge**  
Michael R. Markiewicz, B.S., and colleagues  
*The authors describe a case of osteonecrosis of the jaws in a patient receiving long-term bisphosphonate therapy for cancer and offer recommendations for the management and prevention of oral complications.*

- 1675 Osteonecrosis of the Jaws in Patients With a History of Receiving Bisphosphonate Therapy: Strategies for Prevention and Early Recognition**  
Maico D. Melo, D.M.D., and colleague  
*The authors describe patients with bisphosphonate-related osteonecrosis of the jaws and offer recommendations for early recognition and prevention.*

## RESEARCH

- 1682 Digital Imaging Fiber-Optic Trans-Illumination, F-speed Radiographic Film and Depth of Approximal Lesions**  
Douglas A. Young, D.D.S., M.B.A., M.S., and colleague  
*Dr. Young and colleague determine whether fiber-optic transillumination digital imaging is useful in evaluating early approximal lesions and compare radiographs produced with F-speed film with histologic analysis and cavitation.*

- 1688 Removal of Oral Biofilms by Bubbles: The Effect of Bubble Impingement Angle and Sonic Waves**  
Michael R. Parini, M.S., and colleague  
*The authors conduct a study to determine the effectiveness of oral biofilm removal by bubbles and sonic waves.*

## CLINICAL PRACTICE

- 1694 Noncarious Cervical Lesions in Adults: Prevalence and Occlusal Aspects**  
Luiz Fernando Pegoraro, D.D.S., Ph.D., and colleagues  
*The authors evaluate the prevalence of noncarious cervical lesions in adults and these lesions' association with occlusal aspects.*

**1701 The Integration of Clinical Research Into Dental Therapeutics: Making Treatment Decisions**

Sharon M. Gordon, D.D.S., M.P.H., Ph.D., and colleague

*The authors review the tools clinicians need to evaluate evidence and to assimilate changes into clinical practice.*

page 1714

**OBSERVATIONS**

**1711 How to Kill a Tooth**

Gordon J. Christensen, D.D.S., M.S.D., Ph.D.

*Dr. Christensen discusses potential reasons for pulpal death related to dental techniques.*

**ESTHETIC & RESTORATIVE CARE**

**1714 The Clinical Performance of CAD/CAM-Generated Composite Inlays**

Dennis J. Fasbinder, D.D.S., and colleagues

*The authors evaluate the longitudinal clinical performance of a resin-based composite in CAD/CAM-generated adhesive inlays.*

**PRACTICAL SCIENCE**

**1724 The Treatment Effects of Invisalign Orthodontic Aligners: A Systematic Review**

Manuel O. Lagravère, D.D.S., M.Sc., and colleague

*The authors conduct a study to determine the treatment effects of an orthodontic system.*

**A BETTER PRACTICE**

**1730 Continuing Education: Balancing Team Development in Four Directions**

Christian B. Sager

*Mr. Sager explains why continuing education for the dental team should include a balance of interpersonal development and clinical skills.*

**DENTISTRY & THE LAW**

**1737 Peer Review Under the Health Care Quality Improvement Act**

Peter M. Sfikas, J.D.

*Mr. Sfikas explores the Health Care Quality Improvement Act, which was enacted to improve the quality of medical care by identifying and disciplining physicians who engage in unprofessional behavior or are incompetent. Also appearing is an Ethical Moment feature that addresses how to handle rude patients.*
