## COMMENTARY

- 1356 **Editorial:** The Tower of Babel and Health Outcomes  
*M. Glick*  
The JADA Editor explores the detrimental effects of patients' inadequate health literacy on health outcomes and how dental practitioners can help address the problem.

## LETTERS

- 1360 JADA readers explore dental education, temporomandibular disorders and surface electromyography, estate planning and informed consent.

## NEWS

- 1372 **In Memoriam:** Dr. Robert J. Gorlin, recipient of the American Dental Association Gold Medal Award for Excellence in Dental Research, dies at age 83.
- 1378 **CyberNews:** The American Dental Association has teamed up with CareerBuilder.com, one of the largest careers sites on the Internet, to help dentists reach qualified dental team candidates.

## COVER STORY

- 1380 **Point/Counterpoint:** Is There an Association Between Occlusion and Periodontal Destruction?  
*S.K. Harrel, M.E. Nunn, W.W. Hallmon, D.E. Deas, B.L. Mealey*  
Drs. Harrel, Nunn and Hallmon take the "yes" position, and Drs. Deas and Mealey take the "no" position.

## CLINICAL PRACTICE

- 1394 **Sialoendoscopy:** Sialoendoscopy: A New Approach to Salivary Gland Obstructive Pathology  
*O. Nahlieli, L.H. Nakar, Y. Nazarian, M.D. Turner*  
The authors review the relevant literature and provide the history of sialoendoscopy, as well as report on treatment methods used.
- 1401 **Sealants:** A Two-Year Clinical Evaluation of Pit and Fissure Sealants Placed With and Without Air Abrasion Pretreatment in Teenagers  
*A.R. Yazici, A. Kiremitçi, Ç. Çelik, G. Özgünaltay, B. Dayangaç*  
The authors report the results of a two-year clinical study evaluating whether sealant retention increases when fissures are prepared using an air abrasion system followed by acid etching.

## RESEARCH

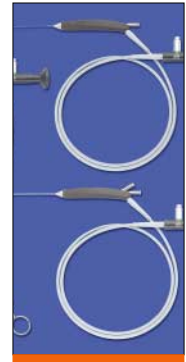

- 1406 **Oral Bacteria:** The Antimicrobial Effect of a Triclosan/Copolymer Dentifrice on Oral Microorganisms In Vivo  
*D.H. Fine, D. Furgang, K. Markowitz, P.K. Sreenivasan, K. Klimpel, W. De Vizio*  
The authors compare the in vivo antimicrobial effects on microorganisms from dental plaque, saliva and the tongue in subjects who used a triclosan/copolymer dentifrice and a fluoride dentifrice.
- 1414 **Bond Strength:** In Vitro Microtensile Bond Strength of Four Adhesives Tested at the Gingival and Pulpal Walls of Class II Restorations  
*J.H. Purk, M. Healy, V. Dusevich, A. Glaros, J.D. Eick*  
The authors investigate whether adhesives with different chemistries bonded to pulpal versus gingival cavity walls result in increased microtensile bond strengths to dentin in Class II cavity preparations.

- 1419 **Mercury:** The Effect of Disinfectants and Line Cleaners on the Release of Mercury From Amalgam  
*H. Batchu, H-N Chou, D. Rakowski, P.L. Fan*  
The authors evaluate 47 disinfectants or line cleaners to determine their potential to release mercury from amalgam waste.

#### PRACTICE MANAGEMENT

- 1426 **Marketing:** Marketing the Dental Practice: Eight Steps Toward Success  
*P.J. McGuigan, A.B. Eisner*  
The authors provide a framework for marketing dental practices within a style that will help dentists build a word-of-mouth marketing campaign.

page 1394

#### TRENDS

- 1434 **Clinical Licensure Examination:** An Analysis of the Contribution of a Patient-Based Component to a Clinical Licensure Examination  
*J.D. Gerrow, H.J. Murphy, M.A. Boyd, D.A. Scott*  
The authors analyze the contribution of the patient-based component of the National Dental Examining Board of Canada's examination to determine its value and validity.

#### PERSPECTIVES

- 1440 **Observations:** Implant Therapy Versus Endodontic Therapy  
*G.J. Christensen*  
Dr. Christensen addresses whether a questionable tooth should be extracted and replaced with an implant and implant-supported crown or should undergo conventional endodontic and restorative therapy.
- 1444 **A Better Practice:** Dental Malpractice Claims: Percentages and Procedures  
*C.P. Hapcook Sr.*  
Dr. Hapcook explains how handling dental office malpractice claims properly can result in much less stress for the practitioner.
- 1446 **Ethical Moment:** What Are My Ethical Obligations in Handling After-Hours Calls From Patients of Other Dentists in My Community?  
*R.G. Asai*  
Dr. Asai explores the ethics involved in covering for other dentists after hours and in emergency situations.

#### 1472 FOR THE DENTAL PATIENT
