COMMENTARY

- 428 **Editorial:** Scientific Fraud—Real Consequences
M. Glick
Dr. Glick discusses the consequences of scientific fraud.
- 432 **Guest Editorial:** The Dental Team: A Ready Reserve or an Overlooked Resource?
E.D. Rekow
Dr. Rekow discusses how the dental team's extensive set of skills can be applied in catastrophe preparedness, response and recovery.

LETTERS

- 436 JADA readers explore written informed consent, bisphosphonate-associated osteonecrosis and noncarious cervical lesions.

NEWS

- 446 **Periodontal Disease:** Columbia University College of Dental Medicine researchers report that gingival destruction can start in children with diabetes at age 6 years.
- 451 **CyberNews:** A new feature on ADA.org called Science in the News is just the place to turn for a clear, concise analysis of oral health issues in the popular press.

COVER STORY

- 452 **Smallpox:** The Smallpox Vaccine: An Update for Oral Health Care Professionals
J. Rinaggio, M. Glick
The authors review the clinicopathological features of smallpox disease and familiarize dentists with the smallpox vaccine and issues surrounding its administration.
- 461 **Bioterrorism:** Dentists' Preparedness for Responding to Bioterrorism: A Survey of Hawaii Dentists
A.R. Katz, D.M. Nekorchuk, P.S. Holck, L.A. Hendrickson, A.A. Imrie, P.V. Effler
The authors conduct a survey of dentists in Hawaii to assess their knowledge, perceived readiness and willingness to respond to bioterrorism events.
- 468 **Emergency Response:** The Dental Emergency Responder: Expanding the Scope of Dental Practice
M.D. Colvard, L.N. Lampiris, G.A. Cordell, J. James, A. Guay, M. Lee, C.M. Stokes, G. Scott
The authors discuss the need for health care providers to understand the National Incident Management System and contribute to inoculation, mass casualty assistance and triage care during a disaster.

CLINICAL PRACTICE

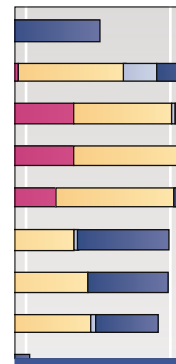

- 474 **Aplastic Anemia:** Oral Manifestations of Aplastic Anemia in Children
E. Sepúlveda, U. Brethauer, J. Rojas, P. Le Fort
The authors describe oral lesions in children with aplastic anemia.
- 480 **Cyclo-oxygenase-2 Inhibitors:** The Use of COX-2 Inhibitors for Acute Dental Pain: A Second Look
M.A. Huber, G.T. Terezhalmay
Drs. Huber and Terezhalmay briefly review the value of cyclo-oxygenase-2 inhibitors in the treatment of acute odontogenic pain.
- 488 **Postural Orthostatic Tachycardia Syndrome:** Postural Orthostatic Tachycardia Syndrome: Dental Treatment Considerations
J.K. Brooks, L.A.P. Francis
The authors provide an overview of postural orthostatic tachycardia syndrome.
- 494 **Practical Science:** Centric Relation: A Historical and Contemporary Orthodontic Perspective
D.J. Rinchuse, S. Kandasamy
Drs. Rinchuse and Kandasamy address the historical and contemporary orthodontic perspective of centric relation.

RESEARCH

- 502 Oral Sedation:** Balancing Efficacy and Safety in the Use of Oral Sedation in Dental Outpatients
R.A. Dionne, J.A. Yagiela, C.J. Coté, M. Donaldson, M. Edwards, D.J. Greenblatt, D. Haas, S. Malviya, P. Milgrom, P.A. Moore, G. Champaine, M. Silverman, R.L. Williams, S. Wilson
The authors review the scientific basis and status of oral sedation.
- 514 Partial-Coverage Restorations:** Fracture Resistance of Different Partial-Coverage Ceramic Molar Restorations: An In Vitro Investigation
C.F.J. Stappert, W. Att, T. Gerds, J.R. Strub
The authors evaluate the influence of preparation design on reliability and fracture resistance of press-ceramic posterior partial-coverage restorations under fatigue.

page 523

TRENDS

- 523 National Practitioner Data Bank:** Reports to the National Practitioner Data Bank Involving Dentists, 1990-2004
J.D. Shulman, J.N. Sutherland
The authors analyze reports to the National Practitioner Data Bank of malpractice payments and adverse administrative actions against dentists over a 14-year period.

PERSPECTIVES

- 531 Observations:** The 'New' Operative Dentistry
G.J. Christensen
Dr. Christensen discusses and compares several preventive and restorative options for Class V lesions in caries-active mature patients.
- 534 A Better Practice:** Practice Transitions and Risk Management Considerations
C.P. Hapcook Sr.
Dr. Hapcook discusses the importance of a fair practice transition.
- 536 Dentistry & the Law:** Are MSOs and Orthodontists Partners?
P.M. Sfikas
Mr. Sfikas explores a recent decision of the U.S. District Court in Chicago, which granted summary judgment to an orthodontist in a breach of contract action.
- 538 Ethical Moment:** What May I Advertise After Completing Courses That I Have Taken to Expand My Practice and Patient Treatment?
Dennis Charlton, DMD
Dr. Charlton explores advertising guidelines.
