COMMENTARY

- 12 **Editorial:** You Are What You Cite: The Role of References in Scientific Publishing
M. Glick
The JADA Editor highlights the importance of including appropriate reference lists in journal articles.
- 16 **Essay:** Inadequate Training in the Biological Sciences and Medicine for Dental Students: An Impending Crisis for Dentistry
B.J. Baum
Dr. Baum stresses the need for dental students to receive training in general internal medicine to enable them to better manage the care of patients with complex medical conditions.

LETTERS

- 26 JADA readers explore allergic contact dermatitis and occlusion and periodontal disease.

NEWS

- 33 **Underexpressed Gene:** A much-studied gene called “SUMO1” can cause cleft lip and palate when underexpressed, according to researchers at Brigham and Women’s Hospital and Harvard Medical School.
- 38 **CyberNews:** A U.S. Department of Labor interactive Web site offers private-sector employers information about the Health Insurance Portability and Accountability Act and other statutes covering health plans.

COVER STORY

- 39 **Sugar Intake:** Comparison of the Intakes of Sugars by Young Children With and Without Dental Caries Experience
T.A. Marshall, J.M. Eichenberger-Gilmore, M.A. Larson, J.J. Warren, S.M. Levy
The authors describe young children’s intakes of nonmilk extrinsic and intrinsic/milk sugars and relate those intakes to dental caries.

CLINICAL PRACTICE

- 47 **Chemomechanical Caries Removal:** Chemomechanical Caries Removal in Children: An Operator’s and Pediatric Patients’ Responses
M.R. Inglehart, M.C. Peters, M.H. Flamenbaum, N.N. Eboda, R.J. Feigal
Dr. Inglehart and colleagues investigate an operator’s and pediatric patients’ responses to chemomechanical caries removal versus the traditional method of caries removal using a handpiece and round bur.
- 56 **Critical Review:** The Use of Temporary Anchorage Devices for Molar Intrusion
N.D. Kravitz, B. Kusnoto, T.P. Tsay, W.F. Hohlt
The authors review the use of temporary anchorage devices for maxillary molar intrusion.
- 65 **Case Report:** Damage to the Inferior Alveolar Nerve as the Result of Root Canal Therapy
M.A. Pogrel
Dr. Pogrel reviews cases of involvement of the inferior alveolar nerve resulting from root canal therapy in patients seen in a tertiary referral center.
- 70 **Nutrition:** Nutrition and Inflammatory Markers
C.O. Enwonwu, C.S. Ritchie
The authors explore the relationship between nutrition and inflammation.

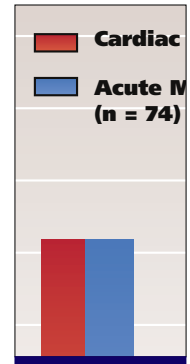

RESEARCH

74 Craniofacial Pain: Craniofacial Pain as the Sole Symptom of Cardiac Ischemia: A Prospective Multicenter Study
M. Kreiner, J.P. Okeson, V. Michelis, M. Lujambio, A. Isberg
 The authors conduct a study to reveal the prevalence of, the distribution of and sex differences regarding craniofacial pain of cardiac origin.

80 Bacteremia: The Impact of Oral Disease and Nonsurgical Treatment on Bacteremia in Children
M.T. Brennan, M.L. Kent, P.C. Fox, H.J. Norton, P.B. Lockhart
 Dr. Brennan and colleagues examine the role of dental disease and nonsurgical dental procedures on the incidence and duration of bacteremia in children.

86 Jaw Movement: Reduced or Painful Jaw Movement After Collision-Related Injuries: A Population-Based Study
L.J. Carroll, R. Ferrari, J.D. Cassidy
 The authors report the incidence of and factors associated with reduced and/or painful jaw movement after motor vehicle collisions that resulted in whiplash-associated disorders.

TRENDS

94 Dental Team Shortages: How Do We Measure Shortages of Dental Hygienists and Dental Assistants? Evidence From California: 1997-2005
T.T. Brown, T.L. Finlayson, R.M. Scheffler
 Dr. Brown and colleagues examine the labor market for registered dental hygienists and dental assistants in California from 1997 to 2005 to determine whether a shortage existed in either market.

PERSPECTIVES

101 Observations: When Is a Full-Crown Restoration Indicated?
G.J. Christensen
 Dr. Christensen makes observations regarding indications for full-crown restorations based on many years as a practicing prosthodontist.

104 A Better Practice: The Passion for Dentistry
R.P. Levin
 Dr. Levin suggests ways in which dentists can renew their passion for dentistry.

106 Ethical Moment: What Are My Ethical Obligations in Enhancing My Practice Through Marketing?
R.G. Asai
 Dr. Asai explores the ethical issues involved in marketing a practice through referral services and publication of a prewritten newspaper column.

132 FOR THE DENTAL PATIENT
