## COMMENTARY

- 1416 **Editorial:** Poverty and Human Development: A Challenge for Us All  
*M. Glick*  
The JADA Editor addresses poverty and human development, the topic of this month's Global Theme Issue spearheaded by the Council of Science Editors.

## LETTERS

- 1422 JADA readers explore the anesthetic efficacy of articaine, sports injuries and temporomandibular joint pain.

## NEWS

- 1424 **Pain Blocker:** A combination of two drugs can selectively block pain-sensing neurons in rats without impairing movement or other sensations such as touch, according to a study published recently in *Nature*.

## COVER STORY

- 1433 **Oral Health Care:** Poverty, Oral Health and Human Development: Contemporary Issues Affecting the Provision of Primary Oral Health Care  
*M.H. Hobdell*  
Dr. Hobdell highlights the plight of millions of people around the world for whom oral health care is not locally available or is beyond their financial reach.
- 1437 **Eradicating Poverty:** Health, Oral Health and Poverty  
*H.D. Sgan-Cohen, J. Mann*  
The authors discuss the associations between health, oral health and poverty and emphasize the need for dentists to dedicate their efforts to eradicating poverty.
- 1443 **Access to Care:** The Effect of Poverty on Access to Oral Health Care  
*J. de la Fuente-Hernández, A.E. Acosta-Gío*  
The authors explore the effect of poverty on access to oral health care and stress the need for health authorities and dental educators to make concerted efforts to address the problem of inadequate access to care.
- 1446 **Health Research:** Global Health Research for America's Vital Interest  
*L.K. Cohen*  
Dr. Cohen stresses the need for increased investment in global health research.

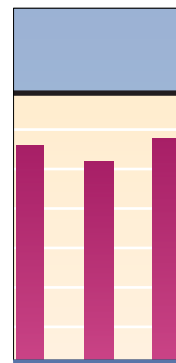

## CLINICAL PRACTICE

- 1450 **Mandibular Canines:** Transmigrant Impacted Mandibular Canines: A Retrospective Study of 15 Cases  
*M.A. González-Sánchez, L. Berini-Aytés, C. Gay-Escoda*  
The authors describe the clinical and radiologic characteristics of patients with transmigrant impacted mandibular canines.
- 1456 **Critical Review:** One-Appointment Endodontic Therapy: Biological Considerations  
*L.M. Lin, J. Lin, P.A. Rosenberg*  
The authors conduct a literature review to present the best available biological evidence concerning one-appointment endodontic therapy for asymptomatic teeth with apical periodontitis.

- 1464 **Case Report:** An Alternative Post-and-Core Method for Patients With Limited Interarch Space  
*B. Ersu, Ş. Canay*  
Drs. Ersu and Canay describe a technique for placement of a three-unit posterior fixed partial denture where one abutment lacked sufficient interarch space.

page 1437

## RESEARCH

- 1468 **Older Patients:** Comorbidities in Older Patients With HIV: A Retrospective Study  
*M.G. Magalhães, B. Greenberg, H. Hansen, M. Glick*  
The authors conduct a retrospective study to determine the prevalence of selected comorbidities that may affect the delivery of oral health care to older patients with HIV.

- 1476 **Amorphous Calcium Phosphate Composites:** The Use of Amorphous Calcium Phosphate Composites as Bioactive Basing Materials: Their Effect on the Strength of the Composite/Adhesive/Dentin Bond  
*G.E. Schumacher, J.M. Antonucci, J.N.R. O'Donnell, D. Skrtic*  
The authors evaluate the strength of the composite/adhesive/dentin bond shear bond strength for amorphous calcium phosphate basing-composites after various periods of water aging.

## PERSPECTIVES

- 1487 **Observations:** Remaining Challenges With Class II Resin-Based Composite Restorations  
*G.J. Christensen*  
Dr. Christensen describes some of the research regarding the current state of Class II resin-based composite restorations and addresses the changes needed in materials and techniques to improve the service potential of this type of restoration.
- 1490 **A Better Practice:** What Is the Ideal Patient Volume?  
*R.P. Levin*  
Dr. Levin urges dentists to ask themselves three questions to help determine the ideal patient volume for their practices.
- 1492 **Ethical Moment:** Should I Dismiss a Patient Who Declines My Treatment Plan?  
*W.G. Leffler*  
Dr. Leffler explores whether it is ethical to dismiss a patient who declines the dentist's treatment plan.
