COMMENTARY

- 932 **Editorial:** The Health Questionnaire: A Continually Changing Component of Practice
M. Glick
The JADA Editor stresses the importance of the dental office health questionnaire.

LETTERS

- 936 JADA readers explore patient referrals, demineralization and fluoride-releasing sealants, and the depiction of dentists in movies.

NEWS

- 944 **Tongue Cancer:** Researchers find an association between long-standing periodontitis and the risk of developing tongue cancer, according to a recent article in the Archives of Otolaryngology.
- 948 **CyberNews:** The Association launches a new and improved advocacy content area on ADA.org.

COVER STORY

- 949 **Er,Cr:YSGG Laser:** The Use of the Erbium, Chromium:Yttrium-Scandium-Gallium-Garnet Laser in Endodontic Treatment: The Results of an In Vitro Study
U. Schoop, K. Goharkhay, J. Klimscha, M. Zagler, J. Wernisch, A. Georgopoulos, W. Sperr, A. Moritz
The authors conduct an in vitro study to assess the effects of erbium, chromium:yttrium-scandium-gallium-garnet laser irradiation on root canals.

CLINICAL PRACTICE

- 957 **Pressure Forceps:** Biopsy of the Buccal Mucosa in Oral Lichen Planus: The Traditional Method Versus the Use of a New Pressure Forceps
A. Bermejo-Fenoll, M.P. López-Jornet, M.J. Jiménez-Torres, F. Camacho-Alonso, A. Orduña-Domingo
The authors design a pressure forceps for use in performing biopsies and analyze the advantages and disadvantages of this instrument.
- 963 **Facial Expressions:** The Application of Facial Expressions to the Assessment of Orofacial Pain in Cognitively Impaired Older Adults
K.-T. Hsu, S.K. Shuman, D.T. Hamamoto, J.S. Hodges, K.S. Feldt
Dr. Hsu and colleagues evaluate facial expressions as a means of identifying orofacial pain in cognitively impaired and cognitively intact older adults.
- 971 **Case Report:** The Treatment of Bisphosphonate-Associated Osteonecrosis of the Jaws With Bone Resection and Autologous Platelet-Derived Growth Factors
M.C. Adornato, I. Morcos, J. Rozanski
The authors describe an alternative treatment modality for patients with refractory bisphosphonate-associated osteonecrosis.

RESEARCH

- 978 **Microhardness:** The Effect of At-Home Bleaching on the Microhardness of Six Esthetic Restorative Materials
O. Polydorou, E. Hellwig, T.M. Auschill
Dr. Polydorou and colleagues conduct an in vitro study to evaluate the effect of an at-home bleaching product on the microhardness of six restorative materials.

985

Dental Unit Waterline Cleaners: The Influence of Dental Unit Waterline Cleaners on Composite-to-Dentin Bond Strengths

A.V. Ritter, E. Ghaname, R.H. Leonard

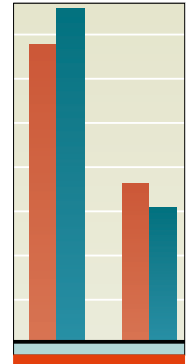

Dr. Ritter and colleagues evaluate the influence of dental unit waterline cleaners on composite-to-dentin bond strengths.

992

Advances in Dental Products: The Antimicrobial Efficacy of the Erbium, Chromium:Yttrium-Scandium-Gallium-Garnet Laser With Radial Emitting Tips on Root Canal Dentin Walls Infected With *Enterococcus Faecalis*

W. Gordon, V.A. Atabakhsh, F. Meza, A. Doms, R. Nissan, I. RizoIU, R.H. Stevens

The authors use an in vitro model to investigate the ability of an erbium, chromium:yttrium-scandium-gallium-garnet laser with radial emitting tips to disinfect *Enterococcus faecalis*-infected dentin.

TRENDS

1003

Dentist Distribution: The Urban and Rural Distribution of Dentists, 2000

T.P. Wall, L.J. Brown

The authors examine urban and rural variation in the number of dentists in relation to the U.S. population.

PERSPECTIVES

1013

Observations: Longevity Versus Esthetics: The Great Restorative Debate

G.J. Christensen

Dr. Christensen makes observations about esthetics versus service relative to dental restorations.

1016

A Better Practice: Decision Making and the Dental Practice

R.P. Levin

Dr. Levin offers advice for dentists on how to make decisions more efficiently and effectively.

1018

Ethical Moment: Am I Obligated to Treat a Patient Whose Need for Emergency Care Stems From Dental Tourism?

R.G. Asai, K.D. Jones, Jr.

Drs. Asai and Jones explore dentists' ethical obligations with regard to treating patients who experience complications after receiving treatment outside the United States.
