## COMMENTARY

- 528 **Editorial:** The Numbers Game  
*M. Glick*  
The JADA Editor stresses the need for oral health care providers to understand certain statistical analyses to provide optimal treatment to patients.

## LETTERS

- 531 JADA readers react to commentary on the dental workforce and address bisphosphonates and osteonecrosis of the jaw.

## NEWS

- 540 **Saliva Tests:** Patients may one day spit into a cup instead of undergoing blood draws when being tested for the presence of cancer, heart disease or diabetes, according to researchers in an article published online March 25 by Journal of Proteome Research.

## COVER STORY

- 545 **Critical Review:** Osteoporosis and Its Implications for Dental Patients  
*B.J. Edwards, C.A. Migliorati*  
The authors conduct a MEDLINE search of the medical and dental literature with the objective of reviewing osteoporosis, its effect on public health in the U.S. population and the implications in providing dental care for patients with osteoporosis.

## CLINICAL PRACTICE

- 553 **Critical Review:** The Potential of Dental-Protective Chewing Gum in Oral Health Interventions  
*K.A. Ly, P. Milgrom, M. Rothen*  
The authors provide an overview of chewing gum as a delivery vehicle for dental-protective agents, highlighting xylitol and its potential application in caries prevention programs for children.
- 565 **Caries Prevention:** Caries and Restoration Prevention  
*I.A. Mjör, D. Holst, H.M. Eriksen*  
Dr. Mjör and colleagues analyze studies of decayed, missing and filled rates for surfaces and teeth in Norway published during the last 30 years.
- 572 **Caries Diagnosis:** A Clinical Study of Caries Diagnosis With a Laser Fluorescence System  
*E. Barberia, M. Maroto, M. Arenas, C. Cardoso Silva*  
The authors conduct an in vivo study to compare a laser fluorescence system with a visual system for occlusal caries diagnosis in children's primary and permanent molars.
- 581 **Case Report:** Recognizing Doxycycline-Induced Esophageal Ulcers in Dental Practice: A Case Report and Review  
*S.L. Segelnick, M.A. Weinberg*  
Drs. Segelnick and Weinberg describe the case of a patient who developed an esophageal ulcer as a result of receiving doxycycline treatment.
- 587 **Diagnostic Challenge:** Lip Swelling in a Teenage Boy  
*A. Pinto, R. Balasubramaniam, F. Alawi*  
Dr. Pinto and colleagues ask readers to diagnose a case in which a patient was admitted to the hospital because of painful lower lip swelling.

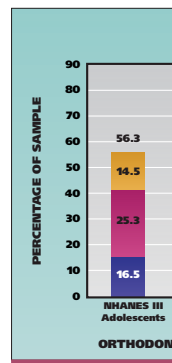

RESEARCH

592 Fluoride Gel: The Effect of Fluoride Gel Use on Bleaching Sensitivity: A Double-Blind Randomized Controlled Clinical Trial
R.V. Armênio, F. Fitarelli, M.F. Armênio, F.F. Demarco, A. Reis, A.D. Loguercio
The authors examine the effect of sodium fluoride gel use on bleaching sensitivity.

598 Orthodontic Care: Oral Health Disparities in Appalachia: Orthodontic Treatment Need and Demand
C.A. Martin, D.W. McNeil, R.J. Crout, P.W. Ngan, R.J. Weyant, H.R. Heady, M.L. Marazita
The authors conduct a study to explore the need and demand for orthodontic treatment in a sample of adolescents and their parents in West Virginia.

page 598

606 Mouthrinses: Antimicrobial Effectiveness of an Herbal Mouthrinse Compared With an Essential Oil and a Chlorhexidine Mouthrinse
A.D. Haffajee, T. Yaskell, S.S. Socransky
Dr. Haffajee and colleagues investigate the antimicrobial effectiveness of three mouthrinses against predominant oral bacteria, as determined by the minimum inhibitory concentration.

JOURNALS CAN

M.L. Barnett
613 Current Literature: This feature offers summaries of selected relevant studies in the current dental and medical literature.

PERSPECTIVES

617 Observations: Considering Tooth-Colored Inlays and Onlays Versus Crowns
G.J. Christensen
Dr. Christensen explores the advantages of placing inlay and onlay restorations for many teeth that now receive crowns.

621 A Better Practice: Performance Reviews That Empower Your Staff Members
R.P. Levin
Dr. Levin stresses the need to conduct performance reviews that focus on improvement.

623 Ethical Moment: What Should I Do When I Suspect a Patient May Be Abusing Prescription Drugs?
R.B. Wentworth
Dr. Wentworth explores the ethical issues involved when a dentist suspects that a patient may be abusing prescription drugs.

CONTINUING EDUCATION

625 JADA's continuing education program highlights osteoporosis and its implications for dental patients, caries and restoration prevention, the effect of fluoride gel use on bleaching sensitivity, and oral health disparities in Appalachia.
